

AGE-FRIENDLY COMMUNITIES REGIONAL FORUMS

Age-Friendly Communities (AFC) is a place-based planning and evaluation framework that encourages community residents to come together to ensure that older adults are able to age actively in their communities.

You are invited to become a part of the worldwide Age-Friendly Communities movement by participating in a one-day regional forum that will provide you with the inspiration, knowledge and tools to make your community more age-friendly and make connections with people in your community interested in working on a local initiative.

At the end of the day you will understand how embracing an age-friendly community can enable you to improve the lives of older adults in your community.
